

How to Choose Your Botox® Provider

Botox® Cosmetic Administration and Recognition on the National Level

Blue Water Spa is one of the top providers of Botox® Cosmetic in the country, and the top provider of Botox® Cosmetic in the Triangle. Our nurse injectors have administered over a quarter million units of Botox® to date. We continue to be among the elite and Black Diamond status with Allergan, the manufacturer of Botox® Cosmetic.

Botox® Cosmetic Storage

Blue Water Spa continues to be the top provider of Botox® Cosmetic nationally. We adhere to strict guidelines from Allergan the makers of Botox® Cosmetic. Botox® is received in a freeze dried format from the manufacturer and is reconstituted per strict guidelines. Research has shown that Botox® is most effective when used within the first six hours of reconstitution. At Blue Water Spa you never have to worry about “diluted” or “old” Botox®.

Nurse Injector Philosophy

At Blue Water Spa we believe surgeon trained injectable nurses overseen by a board certified plastic surgeon are able to provide the consistent, natural injection based upon each individual's unique anatomical structures. Our nurse injectors here at Blue Water Spa have injected well over 1.8 million units of Botox to date and have assisted in over 500 hours in the operating room alongside Dr. Michael Law, MD. Our nurses solely focus on injectables and therefore are solely dedicated to their field and specialty.

Nurse Injector Loyalty

At Blue Water Spa you don't have to worry about having a new nurse injector every 6 months. Our nurse injectors have over eleven years combined service at Blue Water Spa. Melissa, Mari and BJ are the only nurse injectors at Blue Water spa and are often coined the Blue Water Spa “dream team”.

Owned and Operated By A Physician, Not a Franchise

Blue Water Spa must adhere to the safety, cleanliness and truth in advertising guidelines outlined by the North Carolina Medical Board and The American Society of Plastic Surgeons.

A Consultation, Not a Sales Pitch

Complimentary consultations are provided by our nurse injectors. Not everyone is a candidate for Botox®. If you aren't- we will tell you. Our providers do not work on quotas or commission. Your consultation is a time for you to learn about Botox®. It is not a sales pitch- there will never be any pressure.

Why Blue Water Spa / Michael Law MD?

At Blue Water Spa/Michael Law MD we have surgeon-trained and supervised nurse injectors that are the ideal person to perform Botox® injection. The nurse injectors at Blue Water Spa/Michael Law, MD only inject Botox® Cosmetic and dermal fillers. It is what they do all day long, every day not just “occasionally” between other services. Our nurse injectors have injected over 1.8 million units of Botox® to date and are among the top 1% providers of Botox® Cosmetic in the country. Our injectors have a “no pressure” approach and are skilled at providing the least amount of Botox® cosmetic possible to give optimal results. At Blue Water Spa/Michael Law MD you don't have to worry about having a new nurse injector every 6 months. Melissa, Mari and BJ have been with Blue Water Spa/Michael Law MD for years and have mastered the art of Botox® and dermal fillers. Our clients are continuously pleased with their performance.
